Summary

Computer Science undergraduate with strong foundations in Data Structures Algorithms, OOP, DBMS, and Full-Stack Development. Solved 185+ coding problems and built scalable web, mobile, and AI-powered applications using modern software engineering practices.

Experience

Frequer Jun 2025 – May 2026
Web Development Intern *Jhansi, UP*

- Developed and maintained full-stack applications using React.js, React Native, Node.js, Express.js, and MongoDB.
- Designed and integrated RESTful APIs, enabling scalable data flow and seamless client-server communication.
- Collaborated using Git workflows, performed API testing with Postman, and automated deployments through GitHub Actions.

ACT T CONNECT Jun 2026 – Oct 2026
Flutter Developer Intern *Jhansi, UP*

- Built and maintained cross-platform mobile applications using Flutter with responsive UI components.
- Integrated RESTful APIs and backend services to enable scalable and reliable application functionality.
- Performed debugging, performance optimization, and UI/UX enhancements to improve application quality.

Projects

AskMyTutor – AI Learning Platform | *Flutter, Node.js, MongoDB, Socket.IO, AI, OCR* | GitHub

- Built AI-based tutoring app with text, voice, and image input support.
- Integrated AI (GROQ) and OCR for intelligent response generation.
- Implemented real-time communication using Socket.IO and WebSocket architecture.

DAWS – Developer AI Workspace System | *React.js, TypeScript, Node.js, MySQL, LangGraph, LangChain, Groq, OpenAI, Gemini* | GitHub

- Built a multi-agent AI system using LangGraph and LangChain to automate software development lifecycle (SDLC) tasks.
- Integrated Groq, OpenAI, and Google Gemini for AI-powered task execution and agent workflows.
- Developed a full-stack workspace using React.js, Node.js, TypeScript, and MySQL with JWT authentication.

Autonomous Multi-Agent System (CrewAI) | *Python, CrewAI, Gemini API, Serper API* | GitHub

- Built an autonomous multi-agent AI system for workflow automation and content generation.
- Designed 4-agent workflow for marketing, SEO, blogs, and social media.

Technical Skills

- **Languages:** C/C++, Python, JavaScript, TypeScript, Java, Dart
- **Frontend/Mobile:** React.js, React Native, Flutter
- **Backend:** Backend: Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **UI/UX Designing:** Figma
- **Tools:** Git, GitHub, Postman, VS Code, Android Studio, GitHub Actions (CI/CD)
- **Core Concepts:** Data Structures Algorithms, OOP, DBMS, Operating Systems, Computer Networks, SDLC, RESTful APIs, Problem Solving
- **AI/ML:** NLP integration using GROQ API, basic exposure to ML workflows

Coding Profiles

- LeetCode: leetcode.com/u/Mahak$_{ji}$
- Codolio: codolio.com/profile/MyCodeName

Education

Bundelkhand University 2023 – 2027
Bachelor of Technology in Computer Science and Engineering (CGPA: 8.22/10) *Jhansi, UP*

Achievements

- Secured 3rd place among 50+ teams in Software App Exhibition for ReuseBook
- Participated in Hackhazards'25 (210-hour hackathon), developing the AskMyTutor platform
- Solved 185+ DSA problems on LeetCode and coding platforms.

Leadership & Activities

- Club Lead, Coders Hub (IET BU) – mentored peers and led technical initiatives
- Resource Person, TechRise Workshop – conducted hands-on sessions
